

The changing face of Maryborough

ANYONE looking for proof of Maryborough's growth do not have to look far to see the many changes taking place around the city.

The landscape is being rapidly changed as progress takes place on many of the new projects. In Lennox Street two houses were relocated to Maryborough Street by Busby Group house removals to make way for a new

car complex.

Group owner, Michael Busby said the job took about one and half weeks due to some delays with weather.

At Tinana work is progressing on the motel which will form part of the Westside com-

plex with owner Leigh Wanless saying it should be completed within the next few months.

"We shouldn't have many problems with the time line, providing the weather is good to us," Mr Wanless said.
