MORANBAH - DYNO NOBEL - AMMONIUM TANK FOUNDATION
400m³ CONCRETE / 50 TONNES OF STEEL
POUR COMMENCED MIDNIGHT AND TOOK 8 HOURS TO PLACE CONCRETE

CONCRETE SLABS FOR POWER STATION
— MORANBAH NORTH

CONCRETE POUR — AMMONIUM NITRATE PLANT,
MORANBAH

This work involved the full civil construction of a 45 mega watt seam gas powerstation. Works included cut to fill & imported fill for the road construction and pavement. Other works were 2 x dam constructions including HDPE Liner, drainage structures and gully pits, sediment traps, pump out pits, spoon drains, sediment ponds and underground drainage. Concrete structures included 15 engine bases; a 250m² gas conditioning pad; various pedestals/plinths; bulk oil pads and transformer pads; and full workshop construction including all electrical & plumbing works. Also included were 900 lineal metres of security fencing & Armcorail. Approximately 1000m³ of concrete was used on this job.

The Busby Group of companies is servicing Queensland's needs in civil and mine construction, transport services, house removals, demolition and plant hire.

Busby Contractors is an energetic local Rockhampton civil contracting firm with over 50 years of combined civil experience behind it. Managed by Patrick Busby, Kevin Surman and Don Stephen, the company has under taken projects in a number of Central Queensland towns which included Moranbah; North Moranbah Mine, Moranbah; Dyno Nobel Ammonia Nitrate Plant, Moranbah.

Busby Contractors undertakes a wide range of civil works, including engineering, project management and construction. To date, although the company is still growing, a lot has been achieved. Some of these achievements include various projects from building roads, bridges, culverts and other drainage structures, structural concrete work; to earth works, subdivision construction and the project management of civil and mining operations.

The combined experience of the company directors applying hands - on guidance to the range of jobs undertaken, means that projects are completed efficiently and effectively.
